FS/N

IMS4.0

FEATURES:

- Support 4K,
- Equipment management, real-time preview, face application, attendance management and other modules
- Centralized management of equipment (including NVR, IPC, PTZ, etc.)
- Support I8H, SLINK, IOT protocol access
- Support IP, domain name device connection
- Support up to 64 screen segmentation browsing
- Supports up to 9 channels for playback
- Support alarm linkage image bounce screen
- Alarm information uploading linkage of front-end equipment
- Database backup and recovery
- Manage the face library of all front-end devices
- Batch forward device distribution of face library
- Automatic login and remember login password function
- Support attendance kanban and alarm kanban
- Support storage server storage
- Manage configuration and application operations, independent architecture, simple and clear

This is subject to change, please refer to it

SHENZHEN FSAN INTELLIGENT TECHNOLOGY CO., LTD.

Central Management Platform IMS4.0

SPECIFICATION:

Param Mode	IMS4.0
SYSTEM	
Operation	Based on 64 Bits Windows system
SUPPORT	
Hardware	IPC, PTZ, NVR
	I8H、SLINK、P2P
PREVIEW	
Video preview	Support max.64CH sync monitoring
	Intelligent rule and result display
	Support PTZ control function,
	Support alarm channel linkage pop-up display
	Local capture Support front-end bidirectional talk, monitoring
	Preview channel electronic amplification
	Channel image scale is set separately
PLAYBACK	channel image scale is set separately
ILAIDACK	Support max.9CH sync playback
Video preview	Support front-end device remote playback
	Start, pause, stop, fast play, slow play
	Video clip and backup
	Support playback capture
FACE APPLIC	ATION
	Support max.9CH sync monitoring
Live	Intelligent rule and result display
	Channel image scale is set separately
	Realtime display of captured images
	Realtime display of comparison image with temperature
	Query by capture record
	Query by comparison record
Record query	According to time, abnormal temperature, mask query
	Batch export records (record format: composed of. CSV file +. JPG file)
	Search graph by graph, similarity as the condition for query
FACE DATAE	
Face database	Add, delete and modify face database
	Add face template individually
	Import face templates in batch
	Batch export face templates
	Delete and modify face templates
	Search face template according to ID, name and gender
ALARM LINH	AGE
Alarm input type	blacklist, abnormal temperature, mask detection, external input, motion detection, vide
	loss, tampering alarm, count alarm, electronic fence, off duty detection, retrograde
	detection, object detection, and line crossing detection
Alarm linkage	image pop-up and audible alarm
ATTEDANCE	
ATTEDANCE	Attendance management
Attendance	Shift management
	Shift management Attendance group management
	Shift management Attendance group management Holiday management
	Shift management Attendance group management Holiday management Daily statistics
Attendance	Shift management Attendance group management Holiday management Daily statistics Stage summary
